

KALEIDON probiotic drops: 5-ml bottle

KALEIDON probiotic drops is a food supplement based on the probiotic *Lactobacillus rhamnosus GG* (ATCC 53103) that benefits the balance of the intestinal flora.

DOSE AND ADMINISTRATION METHOD: 10 drops a day to be administered as is, mixed with a cold or warm drink of any kind, or in milk at intake temperature (max. 37°C). Shake the bottle well before use.

The presence of any residue of the product on the sides or bottom of the bottle is normal and does not alter either the quantity or quality of the product itself in any way.

WARNINGS: keep out of the reach of children under three years of age.

Do not exceed the recommended daily dose. Food supplements must not be considered as substitutes for a balanced and varied diet and a healthy lifestyle.

STORAGE METHOD: the product contains probiotics which are sensitive to heat, therefore it is recommended to avoid exposure to heat sources or temperature fluctuations and to store the product away from the light in a dry place preferably at a temperature below 25°C. After opening, store the product in the refrigerator and use within 30 days. Store the product in an upright position, not lying down.

The minimum shelf life refers to the product correctly stored in its unopened package.

INGREDIENTS: corn oil, *Lactobacillus rhamnosus GG* (ATCC 53103), emulsifiers: mono- and diglyceride fatty acids.

Gluten-free and naturally lactose free.

AVERAGE CONTENT

Ingredient	per dose (10 drops)
<i>Lactobacillus rhamnosus GG</i>	1×10^{10} CFU

Ten drops contain not less than 10 billion live cells of *Lactobacillus rhamnosus GG* (ATCC 53103). This value is guaranteed until the end of the shelf life of the correctly stored product.
